

## Seeds and Sprouts: Session 2

**Instructors: Laura Erlig and Deneen Cienfuegos**

**Seeds and Sprouts:** Students will learn what it means to have a plot in a community garden. Weekly gardening responsibilities will be integrated with a research topic of the week, scavenger hunts in the garden regarding different types of plants, guest speakers, art and crafts, and garden related activities.

**Research topics this session include:** Community gardening - volunteer projects that will be determined by the community garden requests and needs.

**Materials required:** Spiral Notebook, 2 pencils, color pencils, glue sticks, sharpie

### **Topics:**

Week 1: Community Service 101 - What is community service and its benefits.

Complete a community service project: amending the soil in the herb garden

Week 2: Community Herb Garden - Garden Schematics - Plant the herbs for the herb garden and plant the raised beds in our new plot.

Week 3: Community Children's Pollination Garden - Pollinators

Week 4: Community Orchard - Trees gardening/pruning/fertilizing

Week 5: Community Giving Garden - Manna?

Week 6: Community Green Waste - Athens -Compost bin/ Soil/ worms

Week 7: Community Greenhouse - seeds and greenhouses

Week 8: Summary of Session 2 - Community celebration
